

## Introduction

Navitas University Partnerships Europe (UPE) is committed to providing a high-quality service to its students and to regularly monitoring the effectiveness of its services. As a result, Navitas UPE Colleges\* are required to undertake a yearly formal review.

To complete the yearly review, **one** Annual Monitoring Form should be completed by every College. This **one** document should provide an overview/review of **all** programmes and its associated modules the College delivers and, if applicable, mapped to the [Office for Students \(OfS\) B conditions](#).

The information required includes:

- Student Data and Outcomes
- Student Experience
- Learning, Teaching and Assessment
- SWOT Analysis

Unless the College has agreed through the AAC and JSPMB to adopt the Annual Monitoring procedure as outlined by the University Partner, the completion of this **one** form indicates that Annual Monitoring has been carried out. The completed form should be submitted to Navitas UPE Academic Registry by the **first Friday of January** each year for ratification and sign off by the Head of Academic Quality.

Once submitted, the Navitas UPE Academic Registry will complete a thorough analysis of the Annual Monitoring activity and provide findings and recommendations.

The Annual Monitoring activity should be completed by a nominee in each College who may designate individual tasks to the relevant team for feedback and completion.

*\*Please interpret 'College' as 'Campus' where applicable*
