

Tracer Data Request

Tracer Data is carried out by the University Partner on College* cohorts to monitor the progress of students during the University Partner stages of the degree programmes, to final award. The data contributes to the consideration of the fitness for purpose and effectiveness of the College stage provision and, importantly, enables College student performance to be compared with Domestic and International students recruited directly by the University Partner.

**Please interpret 'College' as 'Campus' where applicable*

Please take each row in turn and, if you have that particular student category, fill in the appropriate data.

Please see Section 8 of the Quality Manual for explanations of the different delivery models.

We appreciate that not all Colleges will have access to all data and have added a blank row for other data that you think is appropriate/valuable.

An example row has been filled in below. Numbers in italics are actual numbers of students.

Overall Undergraduate Progression and Outcomes

Overall Postgraduate Outcomes

	Distinction	Merit (or equivalent)	Pass	Fail
Pre-Master's to UP Master's				
Domestic Students	%	%	%	%

International Students		%		%		%		%
Direct to UP Master's								
Domestic Students		%		%		%		%
International Students		%		%		%		%
Direct to Integrated Master's								
Domestic Students		%		%		%		%
International Students		%		%		%		%

In the above case, an Integrated Master's should be seen as a standard Master's degree at the UP but with additional wraparound support provided by the College.
